

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Keep away from children, domestic animals and pets.

[Products more than 1 lb]

Personal Protective Equipment (PPE)

All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes, socks, and water-proof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

User Safety Requirements:

Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

[Products 1 lb or less]

Anyone handling baits or retrieving carcasses must wear waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

[Products greater than 1 lb]

This product is extremely toxic to mammals, birds and fish. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate.

[Products 1 lb or less]

This product is extremely toxic to mammals, birds and fish. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water. Do not contaminate water when disposing of equipment wash water or rinsate.

ENDANGERED SPECIES CONSIDERATIONS

NOTICE: It is a Federal offense to use any pesticide in a manner that results in the death of a member of an endangered species. The use of this product may pose a hazard to Federally designated endangered/threatened species.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Sweep up spillage carefully and dispose of as indicated below.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container.

[Plastic Buckets] Offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill or by incineration.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Gopher Getter
TYPE 2 BAIT
by **WILCO**

This product may only be used to control pocket gophers in manual, below-ground applications

Active Ingredients:	
Diphacinone (CAS# 82666)	0.005%
Other ingredients	99.995%
Total	100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION
FIRST AID

If swallowed	•Call a poison control center or doctor immediately for treatment advice. •Have person sip a glass of water if able to swallow. •Do not induce vomiting unless told to do so by the poison control center or doctor.
If on skin or clothing	•Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a poison control center or doctor immediately for treatment advice.
If in eyes	•Hold eye open and rinse slowly and gently with water for 15-20 minutes. •Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. •Call a poison control center or doctor immediately for treatment advice.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or 1-800-222-1222 at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the anticoagulant Diphacinone. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans or animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give vitamin K1 intramuscularly or orally.

KEEP AWAY FROM FOODSTUFFS

WILCO DISTRIBUTORS, INC.
P. O. BOX 291- LOMPOC CA 93438

EPA Reg. No. 36029-24
EPA ESTB. NO. 36029-CA-01

DIRECTIONS FOR USE

It is a violation of Federal laws to use this product in a manner inconsistent with its label.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application directions described on this label.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in locations out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and non-target wildlife.
3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: For control only of Pocket Gophers (*Geomys* sp. and *Thomomys* sp.) in and bordering crops (alfalfa, forage, hay, vegetables and grains); rangeland; orchards; and non-crop areas (forestry, plantations, golf courses, lawns and other turf areas, level/ditch banks, nurseries, parks and around agricultural buildings). This product may only be applied at the use sites and by the application methods indicated on this label. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not apply bait above ground; bait must be applied directly into pocket gophers' burrow systems. Remove or bury any bait spilled on the ground during application.

Selection of Treatment Areas: Pocket gophers throw out low, fan-shaped mounds of earth from their underground tunnels. The tunnel entrance is plugged with soil and is found near one edge of the mound. The mounds are usually at the end of short lateral tunnels which connect with the main burrow system. The main burrow is typically about 18 inches from the mound and within 10 inches of the surface. A single gopher burrow system will be about 50 feet in diameter.

APPLICATION DIRECTIONS:

Method 1: Use a pointed metal rod to probe for the main burrow. The probe will "give" when the burrow is penetrated. Remove the probe. Insert a funnel into the hole. Apply 1/2 cup Gopher Getter Type 2 Bait by Wilco into the burrow. Carefully plug the hole with leaves, grass or similar material to prevent light from entering and soil from covering the bait. Make 2-3 applications per burrow system. Repeat treatment if fresh mounds appear after 2-3 weeks.

Method 2: Using a long-handled teaspoon, remove the plug from the mound. Carefully deposit 1/2 cup of Gopher Getter Type 2 Bait by Wilco as far as possible into the burrow. Close the opening with soil, being careful not to cover the bait. Treat again if fresh mounds appear after 2-3 weeks.

Method 3: If using the Sub-Station (underground bait station) place 1 lb. of bait in the station. Align the openings of the station with the tunnel system, then cover the station with dirt. Add bait to the station as necessary.

FPO
0 91017 20016 7

Method 4: When using a hand probe applicator, such as the "WILCO GOPHER GETTER MIDGET" insert the tip into the burrow system, making certain to penetrate the tunnel. Follow the directions on the applicator and dispense 1/2 cup of bait into the gopher burrow. Remove the probe and close the remaining hole by placing a sod plug over it or kicking the opening closed. Treat again if fresh mounds appear after 2-3 weeks.

FOLLOW-UP: Wearing water-proof gloves, collect and dispose of all dead animals and leftover bait properly. Clean all application equipment thoroughly with hot water and detergent. Do not use to handle or transfer human food.

1. PRODUCT IDENTIFICATION

Product Name: **GOPHER GETTER TYPE 2 BAIT BY WILCO AG (RESTRICTED USE PESTICIDE)**
 EPA Signal Word: **CAUTION**
 Active Ingredient (%): Diphacinone (0.005%) CAS No.: 82-66-6
 Chemical Name: 2-Diphenylacetyl-1,3-Indandione
 Chemical Class: An indandione-type anticoagulant rodenticide.
 EPA Registration Number: 36029-23 **Section(s) Revised: Regulatory Review**

2. HAZARDS IDENTIFICATION

Symptoms of Acute Exposure

Slightly irritating to the eyes. The active ingredient is designed to cause bleeding after repeated ingestion.

Hazardous Decomposition Products

None known

Physical Properties

Appearance: Green 1/8" Diameter, milo grain
 Odor: Slight anise

Unusual Fire, Explosion, and Reactivity Hazards

None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Material	OSHA PEL	ACGIH TLV	Other	NTP/IARC/OSHA Carcinogen
Diphacinone (0.005%)	Not Established	Not Established	Not Established	No
Grain	Not Established	Not Established	Not Established	No
Flavorings	Not Established	Not Established	Not Established	No

Ingredients not precisely identified are proprietary or non-hazardous. Values are not product specifications.

4. FIRST AID MEASURES

Have the product container, label, or Safety Data Sheet with you when calling a poison control center or doctor, or going for treatment. **FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL 1-800-498-5743 (U.S. Medical Emergencies) or 1-651-523-0318 (International Medical Emergencies, Collect Calls will be accepted).**

Ingestion: **CALL PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY!** Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Eye Contact: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice

Skin Contact: If on skin or clothing: Take off contaminated clothing. Wash skin with soap and water.

Inhalation: Not applicable.

Notes to Physician

This product contains anticoagulants with an effect similar to warfarin in that they act by interfering with the synthesis of prothrombin. The specific measure is the prothrombin time. Note this may not become prolonged until 12-18 hours after ingestion. The specific antidote is Vitamin K₁ (Phytomenandione BP).

Antidote must be administered under medical supervision. Initially, antidote should be given by injection (10-20 mg, or 0.25 mg/kg for children, by slow intravenous infusion at a rate of 1 mg/minute. In severe cases the use of fresh frozen plasma may be required). Maintenance treatment is given orally (40 mg/day in divided doses for adults; up to 20 mg/day in divided doses for children). The prothrombin time and the hemoglobin should be monitored. Patients should be kept under medical supervision until the prothrombin time has been normal for 3 consecutive days. Oral treatment may need to be continued for several weeks. (20 mg/day in divided doses for adults, and up to 20 mg/day in divided doses for children). (For animal cases the dose is 2-5 mg/kg).

Medical Condition Likely to be Aggravated by Exposure

Bleeding and other conditions which may be aggravated by extended clotting time.

5. FIRE FIGHTING MEASURES

Fire and Explosion

Flash Point (Test Method):	Not Applicable	
Flammable Limits (% in Air):	Lower: % Not Applicable	Upper: % Not Applicable
Autoignition Temperature:	Not Available	
Flammability:	Not Flammable	
Extinguishing Media:	Fog or Water Spray, Foam, Carbon Dioxide, Dry Chemical	

Hazardous Decomposition Products:

None known.

Unusual Fire, Explosion, and Reactivity Hazards

None known.

In Case of Fire

Potentially hazardous in fire. Wear self-contained breathing apparatus. If water is used as an extinguishing media, diking is required to keep contaminated water out of all water supplies.

6. ACCIDENTAL RELEASE MEASURES

In Case of Spill or Leak

Control the spill at its source. Clean up spills immediately, observing precautions outlined in Section 8. Sweep up material and place in a compatible disposal container. Once all material is collected, seal container and arrange for disposition.

7. HANDLING AND STORAGE

Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area. Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION, PACKAGING, AND USE OF THIS PRODUCT.

FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

- Ingestion: Prevent eating, drinking, tobacco usage and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.
- Eye Contact: Eye protection is not required for normal handling. Where eye contact is likely, wear tight-fitting chemical goggles.
- Skin Contact: Gloves are not required for normal handling. Where heavy contact is likely, wear chemical resistant (such as nitrile or butyl) gloves.
- Inhalation: Respiratory protection is not required for normal handling. In the event of an unusual dust exposure, use engineering controls or a NIOSH-approved particulate respirator (N, P, R, or HE filter) to keep exposure below the Occupational Exposure Limit.

9. PHYSICAL AND CHEMICAL PROPERTIES

- Appearance: Green 1/8" Diameter, milo grain
- Odor: Slight anise
- Melting Point: Not Available
- Boiling Point: Not Available
- Specific Gravity/Density: Bulk Density .740 g/ml pH: Not Available
- Solubility: Insoluble
- Vapor Pressure (mmg Hg): Not Available
- Vapor Density: Not Available

10. STABILTY AND REACTIVITY

- Stability: Stable under normal use and storage conditions.
- Hazardous Polymerization: Will not occur.
- Conditions to Avoid: None known.
- Materials to Avoid: None known.
- Hazardous Decomposition Products: None known.

11. TOXICOLOGICAL INFORMATIONAcute Toxicity/Irritation Studies (Finished Product)

- Ingestion: Low Toxicity
 Oral (LD₅₀ Rat) : > 7 mg/kg body weight (Diphacinone Technical at 98% active)
 Oral (LD₅₀ Rat) : > 46,000 mg/kg body weight
- Dermal: Not Available
 Dermal (LD₅₀ Rat) : See "Other Toxicity Information," Section 11
- Inhalation: Not Available
 Inhalation (LC₅₀ Rat) : See "Other Toxicity Information," Section 11
- Eye Contact: See "Other Toxicity Information," Section 11
- Skin Contact: See "Other Toxicity Information," Section 11
- Skin Sensitization: Not Available

Other Toxicity Information

Systemically toxic concentrations of this product will probably not be absorbed through human skin. Because of the formulation of this product, inhalation is not expected to be a normal route of exposure. No irritation is likely to develop following contact with human eyes. Irritation will probably not develop following contact with human skin.

Effects of overexposure are those of anticoagulant overdose, i.e., reduced blood clotting ability with spontaneous bleeding in various organs. Body accumulation can result from repeated exposures. Individuals with blood clotting disorders may be more susceptible to overexposure effects.

Toxicity of Other Components

Grains : Not Available
 Flavorings : Not Available

Target Organs

Active Ingredients

Diphacinone Technical: Blood

Inactive Ingredients

Grains : Not Available

12. ECOLOGICAL INFORMATION

Do not discharge effluent containing this product directly to water. Do not contaminate water when disposing of equipment wash water.

13. DISPOSAL CONSIDERATIONS

Container Disposal

Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
For containers 1 gallon or less: Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

Pesticide Disposal

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
